MATERIAL SAFETY DATA SHEET

1. PRODUCT IDENTIFICATION

TRADE NAME (as labeled): LATAPOXY@ 300 Part A

CHEMICAL FAMILY:

MANUFACTURER’S NAME: MYK LATICRETE INDIA PVT. LTD.
8-2-703/A, 4th floor Leela Gopal Towers
Road No-12, Banjara Hills, Hyderabad – 500034
Tel: +91 40 30413100

Reviewed & Approved by
Dr.P. Arjunan
Vice President – R&D

III. HEALTH HAZARD INFORMATION

SYMPTOMS OF OVEREXPOSURE for each potential route of exposure. (Possible Longer Term Effects) Sensitization and asthmatic reaction may develop with continued exposure to vapours.

SIGNS AND SYMPTOMS OF EXPOSURE (Acute effects)

Inhaled: Breathing vapours may cause irritation of the nose and throat. Symptoms associated with pre-existing lung disorders may be aggravated by exposure to this material.

Contact with skin or eyes: This material causes severe eye irritation. Direct contact with the material or exposure to vapour or mists may cause stinging, tearing, redness, blurred vision, and chemical burns of the cornea. Burns of the eye may cause blindness. This material is corrosive to skin. Skin sensitization and allergic reaction are possible.

Absorbed through skin: N/A

Swallowed: Not likely to occur in typical industrial environments however ingestion of this material may be harmful or fatal.
SUSPECTED CANCER AGENT?

_____ NO: This product’s ingredients are not found in the lists below.

YES: ______ Federal OSHA ________ NTP _______x_______ IARC

IV. FIRST AID: EMERGENCY PROCEDURES

Eye Contact: Hold eyelids apart and immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention immediately.

Skin Contact: Remove product and immediately flush affected area with water for at least 15 minutes. Call a physician. Expect in the most minor, superficial, and localized burns, cover the affected area with a sterile dressing or clean sheeting and transport for medical care. DO NOT APPLY GREASES OR OINTMENTS. Control shock if present. Launder contaminated clothing prior to reuse. Contaminated leather wear should be discarded. Victims or a major skin area contact should remain under medical Observation for at least 24 hours due to possible delayed effects.

Inhaled: If breathing has stopped or is labored give assisted respiration (e.g. mouth-to-mouth). Supplemental oxygen may be indicated. Prevent aspiration of vomit. Turn victim’s head to the side.

Swallowed: In the event of ingestion, DO NOT INDUCE VOMITING. Obtain medical care and hospital treatment immediately.

V. FIRE AND EXPLOSION

Flash Point Method): 305 °F (Cleveland Open Cup)

Auto ignition temperature, °F: 

Flammable limits in air, volume %: Lower (LEL) _____ Upper (UEL) _____

Fire extinguishing materials: ______X_____ water spray ______X_____ carbon dioxide ________ other: ______X_____ foam ________X_____ dry chemical x

Special fire fighting procedures: NFPA class II of HMIS class I rating. Wear full protective gear and NIOSH/MSHA approved self-contained breathing apparatus. Retain expended liquids from fire fighting.

For later disposal.

Unusual fire and explosion hazards: N/A

VI. SPILL, LEAK, AND DISPOSAL PROCEDURES

Spill response procedures (include employee protection measures): Dam and absorb spill with absorbents.

Materials, minimize breating vapors. Increase ventilation. Wear impervious gloves, safety goggles, and NIOSH approved organic vapor canister type respirator.

Preparing wastes for disposal (container types, neutralization, etc.): Absorb spill on sand, earth, or
Vermiculite. Carefully collect in to closed containers for disposal. Wash spill area with 5% acetic acid. Then flush with water. Do not sewer.

NOTE: Dispose of all wastes in accordance with federal, state and local regulations.

VII. Handling and Storage

Store in cool dry area.

VIII. Exposure Controls and Personal Protection

Ventilation and engineering controls: General Ventilation should be adequate.

Respiratory protection (type): In confined areas, a NIOSH approved organic vapour canister type Respirator should be worn.

Eye protection (type): Chemical splash proof goggles

Gloves (specify material): Rubber or polyethylene goggles. In emergency situations, wear impermeable gloves with cuff to prevent spread of material to area above the wrists.

Other clothing and equipment: Long sleeved shirt and long trousers.

Work practices, hygienic practices: Wash at the end of each work shift and before eating, smoking or using the toilet. Launder or discard contaminated clothing. Discard contaminated leather articles. Examine protective gloves before using. Discard if find evidence of holes or cracks.

Protective measures during maintenance of contaminated equipment: See above.

IX. Physical Properties

Vapour density (air =1): N/A

Specific gravity: 0.99

Solubility in water: slightly soluble

Vapour pressure, mmHg at 20°C: N/A

Appearance and odor: Amber colored liquid with amine odor.

HOW TO DETECT THIS SUBSTANCE (warning properties of substance as a gas, vapor, dust, or mist):

X. Reactivity Data

Stability: _____X_____ Stable _____________ Unstable

Conditions to avoid: N/A

XII. Toxicology Information

Polyamide resin – Oral (Rat) LD 50 g/kg. Irritation data skin – rabbit; corrosive eye – rabbit: severe

Polyethylene polyamine Oral (Rat) LD 50 3.99g/kg. Irritation data skin – rabbit: moderate eye – rabbit.
XII. Ecological Information

N/A.

XIII. Disposal Information

Dispose in compliance with local, state, and federal regulations.

XVI. Transport Information

DOT Hazards Class: 8 DOT Proper Shipping Name: Corrosive liquid n.o.s. Technical Name: Contains polyethylene polyamine
DOT Identification Number; UN1760 Surface Freight Classification:
Resin Solution Packing Group: III

XV. Regulatory Information

All ingredients are listed on the U.S. EPA TSCA inventory of chemical substances.
SARA Section 311/312 Hazard Classification: immediate (Acute), Health, Delayed (chronic) Health.
New Jersey Worker and community Right to Know Act: This product contains the following substances which appear on the Hazardous Substance List, are Trade Secret, or are top five ingredients:
